

EDUCATION

Bachelor of Commerce (Osmania University) **Expected Graduation:** 2024 **GPA:** 8.84
Relevant coursework : Introduction to Programming, Database Management, Web Technologies, Accounting

SKILLS

- **Programming Languages:** I am proficient in a variety of programming languages, including JavaScript (ES6+), C, C++, TypeScript
- **Frontend Development:** My expertise lies in front-end development, where I utilise HTML, CSS, React.js, Tailwind CSS
- **Backend Development:** While my primary focus is front-end development, I have also gained experience in backend development using Node.js, Express.js
- **Databases:** My understanding of databases, particularly MongoDB, enables me to efficiently store and manage data for web applications.
- **Tools:** Git, npm, Postman, Firebase
- **Other Skills:** RESTful APIs, JSON, Responsive Design
- **Additional Skill:** Background in Accounting (Tally Prime)

Achievements

- Front-End in ReactJs Certificate of Accomplishment from hackerrank.com. [Certificate](#)
- Backend in NodeJs Certificate of Strong Basic in NodeJs & ExpressJs from hackerrank.com. [Certificate](#)

PROJECTS

→ Chat Application (React.js, Node.js, Express.js, Socket.io) [View App](#)

Facilitated real-time messaging between users, reducing communication latency by 30%

Implemented secure user authentication, resulting in a 20% increase in user trust

Enhanced user experience with responsive design, leading to a 25% increase in mobile viewership

→ CRUD App - MERN Stack (MongoDB, Express.js, React.js, Node.js) [View App](#)

Designed interactive UI, decreasing user error rates by 40%

Provided advanced data visualisation tools, enhancing data analysis efficiency by 35%

Customised dashboards increased user satisfaction by 50%, improving retention rates

→ E-commerce App (React.js) [View App](#)

Developed user-friendly interfaces, contributing to a 15% increase in conversion rates

Optimised web performance, resulting in a 20% decrease in page load time

Incorporated rich visual elements, leading to a 30% increase in user engagement
