

EDUCATION

Bachelor of Commerce (Osmania University)

Expected Graduation : 2024

Relevant coursework : Introduction to Programming, Database Management, Web Technologies, Accounting

SKILLS

Programming Languages: I am proficient in a variety of programming languages, including JavaScript (ES6+), C, C++, TypeScript

Frontend Development: My expertise lies in front-end development, where I utilise HTML, CSS, React.js, Tailwind CSS

Backend Development: While my primary focus is front-end development, I have also gained experience in backend development using Node.js, Express.js

Databases: My understanding of databases, particularly MongoDB, enables me to efficiently store and manage data for web applications.

Tools: Git, npm, Postman, Firebase

Other Skills: RESTful APIs, JSON, Responsive Design

Additional Skill: Background in Accounting (Tally Prime)

Achievements

- Emerged victorious in JavaScript Quiz Competition hosted by Google's OpenClass
- Achieved outstanding results in ReactJs Quiz Competition conducted by w3school

PROJECTS

Chat Application (React.js, Node.js, Express.js, Socket.io) [View App Link](#)

Impact: Facilitated real-time messaging between users, reducing communication latency by 30%.

Impact: Implemented secure user authentication, resulting in a 20% increase in user trust.

Impact: Enhanced user experience with responsive design, leading to a 25% increase in mobile Viewers.

CRUD App - MERN Stack (MongoDB, Express.js, React.js, Node.js) [View App Link](#)

Impact: Designed interactive UI, resulting in a 40% decrease in user error rates.

Impact: Provided advanced data visualisation tools, improving data analysis efficiency by 35%.

Impact: Customised dashboards increased user satisfaction by 50%, leading to higher retention rates.

E-commerce App (React.js) [View App Link](#)

Impact: Developed user-friendly interfaces, contributing to a 15% increase in conversion rates.

Impact: Optimised web performance, resulting in a 20% decrease in page load time.

Impact: rich visual elements, leading to a 30% increase in user engagement.
